User-Friendly

Smart and Intuitive - Smooth Scanning Experience for Dentists

With powerful and intelligent data processing capabilities, Aoralscan 3 is easy to maneuver. Even beginners can get ideal scan results in minutes.

New UI

Neater and more user-friendly interface
More flexible workflow

AI Scan

Automatically identifies and filters out unnecessary soft tissue data during scanning resulting in a quicker and cleaner scan process.

Motion Sensing

Dentists can scan with minimal contact with the computer, ensuring a safe and efficient scan experience.

Clinical Toolkit

The clinical toolkit assists dentists to evaluate and pre-design the scanned data in their own clinic. It facilitates effective communication with dental labs to deliver quality dental work with high efficiency.

Intuitive Dentist-Patient Communication

Clear and Engaged – Satisfactory Experience for Patients

Aoralscan 3, capable of more than just digital impression acquisition, is integrated with powerful 3D visualization tools to help dentists engage patients with their treatment plan and improve overall satisfaction.

Oral Health Report

Health report includes information such as existing dental caries, missing teeth, dental calculus, pigment, etc. Patients have a better understanding of their oral health.

Ortho Simulation

Patients can preview images of their straightened-up results in real time.

Scan-to-print Process

Dental models can be edited and printed chairside enabling the direct visualization of the treatment plan and shortening the restoration fabrication cycle.

“ Aoralscan 3 streamlined the collaboration between practice and labs through their powerful cloud. One click, the order is sent. No additional explanation or calls. So easy and fast! ”
